

Charging power in mini format

39 % more compact, 100 % wireless

The new magnetic wireless power banks from Goobay are compact, powerful and can be taken anywhere. With a length of less than 10 cm, they are 39 % slimmer than standard models and easily fit into any bag. Whether backpack, shopper or pocket – thanks to MagSafe-compatible technology, the power bank stays securely connected to the phone without detaching while charging. Wireless technology delivers up to 15 W, enabling fast charging of Apple essentials. Stay ready for the adventure ahead: A USB-C™ charging cable is included with both the 5,000 mAh and 10,000 mAh version.

MagSafe

Goobay

Magnetic Wireless Power Bank

attaches magnetically to the back of the phone, ideal for charging and telephoning at the same time

- Extremely compact power bank for the inductive charging of smartphones, smartwatches or headphones with up to 15 W
- With the magnetic ring, the power bank attaches securely, charging the mobile phone in your pocket on the go or while in use - without covering the camera
- For full flexibility, the portable charger is also equipped with 1x USB-C™ output (Power Delivery) for wired fast charging of smart devices with up to 20 W
- Completely charged, the battery pack fully recharges a smartphone 1x
- The portable charger recharges via the combined USB-C™ input/output (incl. 0.3 m charging cable USB-A to USB-C™)
- Handy LEDs indicate the charging status of the portable charger
- Compatible with MagSafe-enabled devices such as the Apple iPhone, the Apple AirPods or the Samsung Galaxy S24, S23 and S22

Power Bank Compact

handy and space-saving design with 10,000 mAh | 20,000 mAh, perfect for travelling

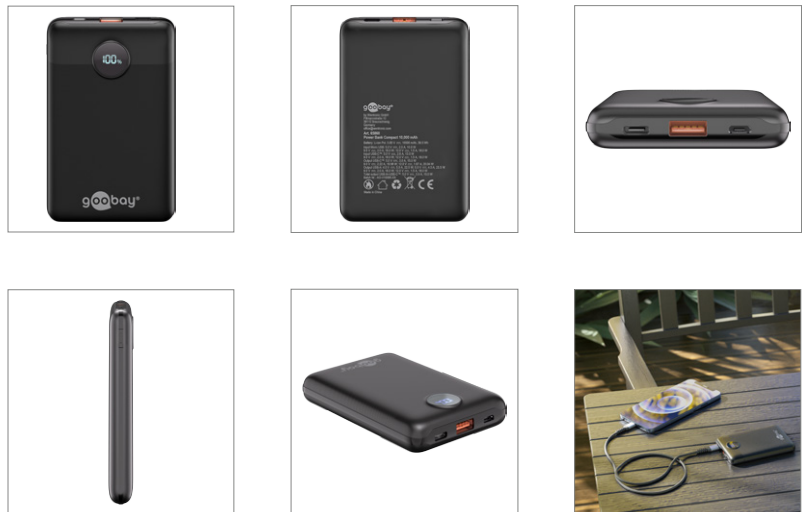

- Extremely compact, lightweight power bank with a non-slip surface that fits in any pocket
- Ideal for charging up to 2x devices in parallel via USB-A and USB-C™, e.g. smartphone, tablet or laptop
- A single battery charge provides for the multiple charging of a small device such as a smartphone, smartwatch or headphones
- With the Quick Charge and Power Delivery modes, the external battery charges devices at high speed with up to 22.5 W
- Equipped with an easy-to-read digital display that shows the exact charging percentage of the power bank
- Recharge is possible through the combined USB-C™ input/output (incl. 0.3 m charging cable USB-A to USB-C™)
- Thanks to the universal USB ports suitable for the devices of many manufacturers, e.g. Apple iPhone or iPad, Samsung Galaxy, Xiaomi, Lenovo or Huawei

Outdoor

Goobay

Outdoor Power Bank 8.0 (8,000 mAh)

for outdoor adventures thanks to its robust design, solar panel and torch function

- Sturdy solar power bank with non-slip sides for outdoor use such as hiking and mountaineering
- Solar panel for charging support and extended battery life
- The power pack is attached to the hiking backpack with a carabiner hook.
- The power bank has a built-in compass and torch with SOS function thanks to the 2 super-bright LED lights.
- 2x USB-A ports make it possible to charge 2 mobile devices at the same time.
- The practical LED status display indicates when the battery pack needs to be recharged.
- The compact dimensions make the solar power bank the ideal companion for on the go.

Outdoor

Goobay

Outdoor Fast Charge Power Bank with Solar 20,000 mAh (USB C™ PD, QC 3.0)

Robust all-round power supply for outdoor use

- The powerhouse for energy-intensive applications supplies up to 3 devices at the same time. Charge your smartphone, tablet and headphones simultaneously.
- The innovative solar panel boosts the performance of the power bank and guarantees a longer operating period.
- USB-C™ power delivery fast-charging technology provides up to 4x faster charging of the powerbank and connected devices compared to conventional powerbanks.
- USB-A port with Quick Charge QC 3.0 allows up to 4x faster charging even via USB-A cable.
- Perfect for outdoor activities such as camping and hiking
- Useful LED: You can call up the battery status of the power bank via the LED display at any time.

Bike

Goobay

Bike Power Bank 5.0 (5,000 mAh)

small, thin and handy bar powerbank with a capacity of 5,000 mAh for mounting on the bike

- Black Goobay power bank with 1x USB-A port with Quick Charge (output) and 1x USB-C™ PD (Power Delivery) port (input/output). Both ports offer fast charging technology.
- Easy to mount, e.g. on the bicycle frame with bicycle holder (360° rotatable)
- 5 Ah battery capacity to fully charge up to 2 small devices or mobile phones like the Apple iPhone or Samsung Galaxy.
- The mobile power bank has an integrated LED torch (not a bicycle light).
- The practical LED status indicator shows when the external battery needs to be recharged.
- The Goobay power bank can be easily charged with a charging cable on a PC, laptop or USB power supply.
- Thanks to the compact housing, the power bank fits in any pocket and is the ideal companion for travelling and camping.
