# A Hub for Every Eventuality

## The Compact All-Round Solution

Maximum compatibility and an ultra-slim design perfect for on the move: Whether at home, in the office or on the go - the slim USB hubs from Goobay are the ultimate solution for all USB challenges in everyday life.

The hubs expand a single USB port to up to five connections, opening up multiple possibilities for devices such as a mouse, keyboard, card reader and numerous USB accessories. Connected via a single laptop or tablet port for excellent convenience.

In terms of quality, the hubs compete in the top league: The robust aluminium housing with a matt finish creates a sophisticated look and impresses with a silky-smooth feel – for quality you can feel. The well-conceived slim design is ideally tailored to mobile life and slides easily into any pocket or bag.

Your edge through technology: As performance professionals, the Slim USB hubs transfer large files at up to 5 Gbit/s – absolutely lightning-fast and always reliable. Their compatibility with all common operating systems, including Android, makes them real all-rounders.

Individual hubs, universal solutions.

# Slim 4-Port USB Hub, USB-A to USB-A, USB 3.2

USB-A plug (USB 3.2) > 1x USB-A socket (USB 3.2), 3x USB-A socket (USB 2.0)

- The handy USB hub expands one USB-A device port to four connections: As a result, a single tablet or laptop port serves up to four peripheral devices
- Compatible with all standard USB-A devices, e.g. smartphones, keyboards, mice, webcams, hard drives (SSD, HDD) or headsets – without the need to install separate drivers
- The USB distributor supports SuperSpeed data rates of up to 5 Gbit/s via the USB 3.2 port and up to 480 Mbit/s via each of the other three USB 2.0 inputs
- With its extra-compact slim format, the USB splitter fits in any bag and is a handy companion when travelling or on the road
- With high-quality, robust aluminium housing that is pleasant to the touch and exceptionally durable
- The USB adapter is compatible with SSD via NVMe, operating systems such as Windows, macOS, Linux or Android and backwards compatible with USB 3.0 and USB 2.0
