

Better Equipped, more relaxed when travelling

Outdoor Heroes on the Campsite

CEE cables from Goobay are the perfect power source on the campsite. Simply connected to the power pedestal, they reliably supply motorhomes or caravans. The product range provides the right option for everyone – from CEE extensions to CEE/mains combination sockets for connecting additional electrical devices. Of course, all cable variants are equipped with orange H07RN-F 3G2.5 rubber sheath cable and therefore approved for use on international campsites. The easy way to make every outdoor tour a relaxed energy experience.

Full Power, Full Convenience

connect the campsite mains to caravan, motorhome & trailer
